## **DETAILED ACTION**

### ***Response to Arguments***

Applicant's amendments and arguments, filed 09/05/2006, with respect to 1-2 and 4-5 have been fully considered and are persuasive. The previous rejection has therefore been withdrawn.

### ***Allowable Subject Matter***

Claims 1-2 and 4-5 are allowed. The following is an examiner's statement of reasons for allowance: Pong (USPN 6,462,603) teaches A MOSFET based, high Voltage, high current AC electronic relay, comprising: a MOSFET switching circuit (Fig. 4) selectively switching between switch conducting and switch isolation, wherein the MOSFET switching circuit includes first and second power MOSFETs (M4 and M5) a transformer arrangement (item 23) electrically connected to the MOSFET switching circuit, the transformer arrangement selectively applying a predetermined voltage to the MOSFET switching circuit which establishes the MOSFET switching circuit in switch conducting the transformer arrangement including a primary winding connected to a first secondary winding. Pong does not teach the implementation of a depletion mode MOSFET in the MOSFET switching circuit in combination with a second secondary winding wherein each of the first and second secondary windings are connected to a full

bridge rectifier wherein the output of which is coupled to said MOSFET switching circuit. At least these further limitations to claim 1 to require a depletion mode MOSFET in combination with the transformer arrangement to coupled to a first and second secondary winding wherein each of the windings are connected through a full bridge rectifier to output of which is coupled to the said MOSFET switching circuit is not taught or rendered obvious by the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Michael Rutland-Wallis whose telephone number is 571-272-5921. The examiner can normally be reached on Monday-Thursday 7:30AM-6:00PM EST.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Lynn D. Feild can be reached on 571-272-2092. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
